

Mark Torresani, Project Manager, RMT, Inc.*

Mark holds bachelors of science degrees in civil and environmental engineering, and geology from the University of Wisconsin-Madison. He has over 15 years of experience as an engineer and project manager on local, regional, national, and international solid and hazardous waste projects. For the last three years, Mark has taught a Solid Waste Engineering for Landfill Gas Management course at the University of Wisconsin-Madison, School of Engineering.

Mark is currently employed at RMT, Inc., in Madison, Wisconsin, as a Lead Engineer and Project Manager. He works on developing and integrating the design, construction, and operation of solid waste projects and remedial actions into a comprehensive solution. His project experience includes solid waste planning, operations assistance, needs analysis, economic analysis, and landfill gas beneficial use evaluations. In addition, Mark has a wealth of experience as it relates to investigating, designing, and installing landfill gas management systems; developing operation and maintenance programs; and remediating contaminated sites. Mark has authored technical papers and has been retained as an expert witness related to landfill gas management issues. He is a member of the Solid Waste Association of North America (SWANA), and holds professional engineering registrations in Wisconsin and Missouri.
